

New Red Cluster

JUNE BEARING STRAWBERRY

LARGE • TASTY • RED CLEAR THROUGH

**RIPENS EARLY
GOOD SHIPPER
BIG YIELDS**

**thrives on
wet soil**

Berries of the New Red Cluster are enormous in size the entire picking season. Flavor is excellent, and as none of their attractive color is lost in processing, they are perfect for freezing and canning. Commercial canners readily recognize this extraordinary feature and Red Cluster is in great demand wherever it is offered. Plants are sturdy, upright, have a large root system and velvety foliage. Perfect Flowering. Excellent Plant-maker. Especially adapted to wet soil without root damage, due to its immunity to Red Steele. The large pointed berries ripen a few days before Premier and will out-produce Premier by many quarts per acre.

PRICES: 25 for \$1.35; 50 for \$2.35; 100 for \$3.45; 250 for \$6.45; 500 for \$10.25; 1000 for \$18.50.

"BRILLIANT"

Plant Pat. No. 1183

**BEARS LARGE, JUICY
BERRIES ALL SUMMER LONG**

**PLANT BRILLIANT
GET RIPE BERRIES IN 6 WEEKS**

Does equally well on all types of soil but on fertile sandy loam results will be amazing. Perfect Flowering.

Brilliant Everbearing Strawberry is absolutely the finest everbearing strawberry for processing or for home use that we have today. When canned or used for jams or jellies, it is unsurpassed in flavor and color. Try it in a small way if you can! The Brilliant Everbearing Strawberry, although comparatively new, is probably more widely planted to date than any other everbearing variety, due to its enormous bearing ability and the fact that it produces, large, extremely bright red colored berries over a long period of time. It will start bearing four to six weeks after planting and is so thrifty that the first blooms that appear should be removed during the growing season, and after a few weeks, you will commence to get perfect fruit of the highest quality that we know of. Brilliant, having originated in the northern part of Michigan, it is absolutely hardy, and if you will give it plenty of moisture during the months of July and August, a small number of plants will provide an abundance of fruit for the average family. We suggest that the average family plant 100 plants to begin with.

PRICE: 25 for \$3.25; 50 for \$5.75; 100 for \$9.95.
Postage prepaid 2nd, 3rd and 4th zones only.

**A SUPERIOR BERRY
FOR HOME USE AND A
REAL MONEY MAKER
FOR THE COMMERCIAL GROWER.**

Superior New EVERBEARING STRAWBERRY

**BRIGHT RED
SUPERBLY FLAVORED**

Has Everything

This sensational new Everbearer rates a winning score on every point: **Larger Size. Brighter Red Color. Outstanding Flavor. Best Canning and Freezing Qualities. Greater Yield. Strength and Vigor of Plants.** No other Everbearer can match BRILLIANT for uniformly large, top quality, bright red berries. The color is absolutely bright red clear through even when mashed or finely cut. The flavor is a mouth-watering, tangy, true-strawberry flavor, which most Everbearers lack.

BRILLIANT is a superior berry for home freezing and canning—retaining its vigorous flavor, rich color and firm quality. And for fresh desserts it offers you a real taste-thrill!

Better Plants Mean Bigger Profits

There is no question about it. The only way to get bigger profits is by growing big money-making crops. Healthy, vigorous plants with strong root systems are insurance against crop failure. BRILLIANT has proved itself under all conditions of soil and climate. Where other varieties fail due to excessive rains or drought, BRILLIANT will thrive and bear steadily throughout the fruiting season.

A Keplinger Origination

BRILLIANT is another find of that plant wizard F. J. Keplinger, who also produced the Gem and the Superfection. Originated in northern Michigan, the plants are extremely hardy.

*Plant
Now!*

and Get in on BIG Cash Profits

Do you want a sure-fire, quick money making crop? Then try a planting of Brilliant this spring and you will realize greater profits per acre than ever before. These high-powered plants will start to bear in just a few weeks after setting out, and will keep right on producing steadily all summer and fall. Brilliant's amazingly high production will earn cash profits right from the start. It is practically impossible to give you the exact quantity produced per plant, but in our years of experience, there has been no everbearer that produces nearly as much fruit per plant as this variety.

Save on Food Budget—Earn Extra Cash Too

If you are located on a well-traveled highway or adjacent to any large center of population, the Brilliant Everbearing variety offers you an opportunity to make ready cash. Fruit should be picked about every third day and if you will do this, the color will be so attractive that you will have no trouble in making sales readily. Berries are large and bring top prices on the fruit market. You can make a nice income and save on your food budget if you plant Brilliant now!

Proper Planting Is Essential

The everbearing strawberry produces its entire crop on the Mother Plant, so the more plants you set on a given space, the more fruit you can expect to pick. We recommend that you plant everbearing varieties in rows about 14 in. apart, setting three rows side by side over a distance of 42 in. Then skip 40 in. leaving this space for cultivation purposes, and add three rows more. For high quality clean fruit, mulch the rows which are 14 in. apart with well-rotted sawdust or any other leafy material, but give plenty of water during July and August. Brilliant is a perfect pollinizer and the only everbearing variety that will make plants freely under average conditions.

SAVE 10% With STAHELIN'S CASH DISCOUNTS

10% discount for January Cash orders. On orders received and postmarked before February 3, 1955, with cash in full, we will allow a 10% discount on all items except bargains, special quotations by mail, or those marked: "No Discount."

DON'T WAIT TO ORDER

Our customers have been very fine in the past few years in placing their orders early. Please remember that the shipping of strawberry, asparagus and that class of plants, depends entirely upon weather conditions here. WE POSITIVELY DO NOT SHIP ANY STORAGE PLANTS. We will endeavor to fill your order as close to the time specified as possible but if excessive rain or cold weather occurs at that time of the year, there may be a slight delay.

TRANSPORTATION

Unless otherwise stated in catalog, transportation charges on all stock listed in this catalog are to be paid by the customer, as the weight of nursery stock cannot be determined exactly in advance of shipment.

NOTICE

For approximate shipping charges, refer to the back of our order sheet enclosed with this catalog. Complete schedules and rates, as closely as they can be figured, will be found there.

TERMS ON C. O. D. ORDERS

We can ship C.O.D. if the order amounts to \$5.00 or more at full catalog price, no discount allowed, but 25c on each dollar must be included with your order as a down payment. If order amounts to \$5.00, sent \$1.25 with the order; if \$6.00, send \$1.50, etc. You may inspect express shipments before you pay. (Parcel Post not subject to examination.) If satisfactory, pay the agent the amount due. **No. C.O.D. shipments made after April 25th.**

FALL SHIPMENTS

We encourage the fall planting of nursery stock. Plants and trees are dormant then, and when warm weather comes in the spring, your stock is ready to commence growing. Nursery stock cannot be shipped until it has had some cold weather to harden it up, and fall shipments are usually made after the middle of October. **NO DISCOUNT ON FALL ORDERS.**

KEEP ALL PAPERS

If necessary to write at any time, be sure and return all papers sent you except planting instructions. All papers pertaining to your order will be returned to you when order is acknowledged. **Do not destroy them!**

F. C. Stahelin

Located as we are, just north of the Indiana line, we have every advantage possible to produce good nursery stock. Our 1955 catalog will mark over a quarter of a century of producing the best in trees, plants, and ornamental stock. Keeping in touch with State Agricultural Departments all over the country, in regard to their findings, and constant search among the better orchards, has enabled us to improve the existing strains of apples, peaches, etc. We have eliminated many sorts from this catalog and replaced them with better varieties, to give you the most productive trees and best selling fruits possible. We have spent a great many dollars to secure these improved strains and varieties for you, and we believe our efforts will be appreciated by our customers, both new and old. Our prices, we believe, are as low as you can get on guaranteed, true-to-name, healthy, paying stock. Each year we have enlarged our acreage and each year added new customers, who have become real friends. We want **all** of our customers to know that they can place the same confidence in us by dealing through the mail as they would by coming directly to our office here.

TO OUR FRIENDS IN THE CHICAGO AND GARY DISTRICTS: We are only about an hour's drive from you and a quarter of a mile off the four-lane highway U.S. 12 from Chicago. We are open every day but Sundays Place your orders through the mail, advising when you would like to pick them up, and we will have stock ready for you when you call for it. By making a small down-payment, stock will be reserved individually for you, which is to your advantage.

STAHELIN'S GUARANTEE

We guarantee all shipments to reach you in good growing condition. If shipment is delayed or damaged in transit, please secure a signed statement from your local agent and send it to us with your claim within three days after receipt of stock, and we will make free replacement.

We guarantee all stock to live and grow if given reasonable attention. Should any item fail to do well, we must be notified within 60 days and we will replace the following planting season. Stock on which claims are made between July 1st and September 1st, will be replaced at half price another season. We are not responsible for losses caused by improper planting, care or unfavorable weather conditions, and these factors will be taken into consideration when claims are made.

We guarantee all stock to be true to name and will make free replacement upon receipt of proof that it is not as represented in our catalog. At no time are we responsible for more than the original cost of the stock.

**THE WORLD'S
GREATEST
STRAWBERRY**

Scarlet BEAUTY

HUGE SIZE, BRIGHT COLOR

The size of Scarlet Beauty is practically indescribable. The plant is peculiar, in as much as it only sends out one fruit stem, but this fruit stem will have from two to three huge berries on every plant. This variety will produce as many or more quarts per acre than Premier. Fruit is outstanding due to its size and coloring. The berry itself is extremely brilliant red in color and has a large bright green calyx. This makes for beautifully appearing berries, as they always look fresh, no matter how long they have been packed. Buyers on the market marvel at the brilliant red color of this variety, coupled with the bright coloring of the calyx, which always make it command a high market price.

LATE FRUITING SEASON

Scarlet Beauty commences to ripen about the time Premier is finished. Continues to bear over a long picking season, and this semi-late fruiting brings it on the market at a time when, in most sections, there are no strawberries to be had. We believe that the Scarlet Beauty will produce more huge, first-class berries than any variety that we have ever seen. At least 100 plants should be in every garden in the U.S.A. It's a marvel in size, coloring, and appearance. No other variety has attained such popularity in so short a time.

THRIVES IN POOR SOIL

Due to its plant making ability, the Scarlet Beauty will thrive and produce a crop of berries on rather poor soil. Scarlet Beauty is a perfect flowering variety which requires no pollinizing. The plant is rather small but exceptionally long rooted. It has healthy foliage, is an excellent plant maker, and an immense producer. It should not be planted closer than 24 in. apart. Try to keep your plants two to three inches apart in the picking row as it has a tendency to grow very thick.

VERMILION

A wonderful new variety—early to mid-season in ripening. Very resistant to Red Stele and Leaf Spot. If you have had trouble along these lines, plant Vermilion and your troubles will be over. A healthy grower with fine foliage. Berries are round to conical, very firm, and medium red color.

We are very sorry but due to the scarcity of these plants, we must limit them to 1,000 to a customer.

Vermilion

FAMOUS
For Its
"FROST-PROOF"
Qualities

Popular
PREMIER

By means of careful plant selection for a number of years, we have perfected a strain of Premier that we know will produce more plants per acre than any other strain of Premier. Our Premier is adapted to all soil and climatic conditions. The picking season is long, commencing with the first and continuing to produce large size fruit until the late varieties are practically over. Premier is very easily picked, and easily sold because of its large size. Premier is practically immune to late spring frost and if you are located in a section where such trouble occurs, you can be assured of getting a fine crop if you will plant our Premier. This is due to the peculiar plant growth which it makes, almost completely hiding the blossom and protecting it from severe cold. Berry is extremely juicy, yet quite firm, making it an excellent shipper. Comes on the market when there are practically no other strawberries. Fruit is bright showy red with a large calyx. For a big crop of fine fruit in spite of cold weather when plants are in blossom, plant Premier.

Delicious Hardy
FAIRLAND

Fairland is another one of the varieties developed by the U.S. Department of Agriculture to combat the Red Stele disease. Fairland is being grown very generally in Berrien County, Michigan, one of the biggest strawberry growing sections of the Country, as a market berry, and our growers here make very favorable reports on it. The Fairland Strawberry ripens just a few days after Premier. It is just as productive as Premier with a firmer berry. The berries

are large in size and an attractive light red color. Fairland has proved to be an excellent shipper and as it is entirely Red Stele resistant, it does particularly well in the middle and northern states. A fine variety for gardens and one of the best we know of for freezing. Berries are of good quality and the flavor is excellent. This variety is a good plant maker and one which we recommend to you for trial as we know you will like it.

Fairland

Armore

ARMORE

Armore is one of the finest of the new varieties of strawberries that has been produced in the last few years. It is a result of testing by an experimental station in the heart of the strawberry section.

PERFECT FLOWERING

The plants are large and grow in a manner that will properly space them. Due to this fact the size of the berry is maintained throughout the picking season and usually the entire crop can be harvested in about three pickings. This variety makes a fine picking row on light soil. It is a top-notch producer. The berry is an excellent shipper. Commercial growers are requesting this variety and as our supply is still not too plentiful, we suggest that you place your order as early as possible.

Limit 500 plants to a customer.

EMPIRE

Berries are large, rather pointed, very glossy light red, with light flesh. Plants are sturdy, heavy yielding, and produce many runners. Berries maintain their size well and present an unusually attractive appearance. Ripen 4 to 6 days after Premier. We particularly recommend this variety for market and home use.

PRICES:

25 for \$1.40 100 for \$ 3.60
50 for 2.40 250 for 6.90
500 for \$11.25

LIMIT—500 plants per customer.

Empire

New Red Crop

This Berry Is Bright Red Throughout

Red Crop is a midseason to late variety. It makes an excellent frozen product because it carries its color through the entire berry. It has quite an attractive calyx and is medium to large in size and very firm. It is absolutely immune to all root diseases, including Red Stele. It is a large plant maker, very vigorous, and it makes a well matted row. Perfect flowering. If you have trouble growing strawberries on wet soil, try Red Crop.

PRICES:

25 for \$1.35	100 for \$ 3.45	500 for \$10.25
50 for 2.35	250 for 6.95	1000 for 18.50

Red Crop

TEMPLE

We have fruited Temple quite extensively here on our farms for the past several years and think that it is one of the finest dessert strawberries we have ever picked. It has a beautiful dark red color and is very firm when fully ripe. Flavor is excellent and its dark red color, clear through, makes it very desirable for freezing. Temple is a very remarkable grower, will survive wet weather conditions under which the ordinary strawberry would be a total failure. Plants grow unusually tall, yield heavily, and fruit ripens a few days later than Premier. Berries are large, have a brilliant calyx and present a fine appearance when packed. Due to its firmness and color Temple is a very good shipper. We believe commercial plantings of this variety should be increased.

PRICES:

25 for \$1.35	100 for \$ 3.35	500 for \$ 9.75
50 for 2.25	250 for 6.85	1000 for 18.00
	2000 for 35.00	

Temple

New SPARKLE

The Sparkle strawberry, which gets its name from its sparkling appearance, came to us from the New Jersey Experimental Station. This variety is very resistant to Red Stele and other strawberry diseases which sometimes attack the weaker varieties. Will do well even under wet weather conditions, where ordinary varieties would soon die. A good plant maker, it yields heavy crops and is mid-season in ripening. A quality berry, uniform in shape, medium to large in size. Excellent for freezing.

PRICES:

25 for \$1.35	100 for \$ 3.40	500 for \$ 9.85

Superfection

20th CENTURY EVERBEARING

The 20th Century that we offer today is not the 20th Century that was introduced about ten years ago. It is an entirely new hybrid type of berry. The berry, under normal conditions, is very large, of a semi-dark red color, and has great eye appeal. Very heavy producer, plants running quite large and having a heavy type of foliage. Exact parentage is not known, but it looks to us like a cross of the old Rock Hill and Supreme varieties, as it has all of the good points of these two sorts. Average plant maker. Perfect flowering. We think a great deal of this new variety and are increasing our plantings yearly as we believe it is bound to become very popular for jams and jellies due to its fine flavor. Recommended for table use. **PRICES: 25 for \$2.15; 50 for \$3.95; 100 for \$7.25; 250 for \$14.50.** Shortage of plants makes us limit this variety to 250 to a customer.

PLANT PAT. 993

red rich
EVERBEARING

TRADE MARK

We are again adding Red Rich to our list of everbearing strawberries as a variety that every gardener should try. Red Rich is a dark red, tough skinned variety that is honey sweet. The plants grow to immense size. Given plenty of moisture during its fruiting season, the amount of berries that Red Rich produces will astonish you. Originating in Minnesota, Red Rich is very hardy. Set on good fertile soil, a good row can be produced and you will like the pleasant flavor and fine dark color of the Red Rich berries.

[7]

SUPERFECTION

KING OF THE EVERBEARERS

The superfection everbearing strawberry is of northern Michigan origination.

Continuous Bearer

It bears almost continuously from a short time after planting until cold weather arrives.

Excellent Shipper

Berries are slightly round, quite firm in texture, making them good shippers without damage. They have a very good flavor. In the common everbearing varieties, this is one of the best. It does well under all climatic conditions and we urge you to try this variety. It is of Keplinger origination, therefore guaranteed to be exceptionally hardy. **PRICES: 25 for \$1.95; 50 for \$3.25; 100 for \$5.50; 250 for \$11.00; 500 for \$18.75; 1000 for \$30.00.**

20th Century

Red Rich

FINE RED RASPBERRIES

LATHAM THE FAMOUS LATE RED RASPBERRY

The Latham is a big, late ripening, red raspberry that grows on a very stiff cane and comes on the market at a time when practically all other raspberries are gone. Very productive, it will produce from 5,000 to 7,000 quarts per acre, which is about twice as much as any other red raspberry available today. This is a superior variety which does well in all sections of the country. It is adaptable to all sorts of soil conditions, climates, and locations. Cold weather has no effect on Latham as it originated in Minnesota. A great shipping and canning berry. Produces fruit of large size, fine color, and good flavor.

The plants we offer are of the best quality and carry triple inspection certificates as being disease-free. Latham Plants are not plentiful. Have **your** plants reserved early by placing a small deposit on them.

SUNRISE THE FINEST EARLY RASPBERRY TODAY

An excellent red raspberry, which we recommend very highly. It starts to ripen in Michigan the latter part of June, about two weeks ahead of Latham, and because of its habit of sending up long shoots from the bottom of the cane, which ripen later than the buds at the top, it has an extremely long picking season. About the size of Latham, and a bright red when ripening. Fine textured, juicy; does not crumble, and is very firm. Does not require expert attention to grow. Plants are vigorous and bear heavily. Easy to pick and sell.

New

✓ **EARLY RED** *Red Raspberry*

**TRY THIS WONDERFUL NEW VARIETY
AT OUR REDUCED PRICES!**

The New Early Red raspberry originated at the South Haven Experimental station and we have been watching it carefully for some time. It has been commercially tested in this famous raspberry growing section, for the past ten years. It is the earliest maturing red raspberry that we know of and comes on the market when prices are higher than the later varieties command. Plants of Early Red are upright, vigorous, hardy, and very productive. The fruit is conical and light red when first ripe. It separates from the vine easily. This is important as the berries are easy to pick while firm and the harvesting can be done before they are too soft. Due to its parentage, it has inherited much of the excellent flavor of the old Cuthbert. We have a fine supply of these plants this year and have been able to make a reduction in price, which we hope you will take advantage of.

✓ **WILLAMETTE Giant New Red Raspberry**

Willamette is one of the most promising of the new Red Raspberries. It is a very vigorous grower, making a nice growth under adverse circumstances. The fruit of Willamette is very large, shaped somewhat conical, comes off the vine easily and is a beautiful red color.

Best For Canning Preserving

On tests made locally by the leading canners, their report is as follows: "The best looking Red Raspberry that we have tried. It does not crumble when canning and does not fade. We wish that we could get a great many tons of them for preserving and canning." If the canners think this of the Willamette, it has a great future. The ripening is about the same as Latham.

New ✓ **September** **EVERBEARING RED RASPBERRY**

The New September Everbearing Raspberry was introduced by the New York State Fruit Testing Association in 1947. It is a result of a number of crossings. The plants are of a very good size and the fruit is of excellent quality and when ripened shows no signs of crumbling. One feature of the New September is that it ripens many days earlier than most other Fall-bearing varieties, thus getting a chance to mature its crop before cold weather sets in. In the Spring it is very early and will ripen before practically any other sort. Plants are vigorous and very hardy and should be a fine addition to the home garden. The variety is new and plants are still somewhat scarce, so we recommend that you plant a few in your garden for trial. Enjoy fresh raspberries practically all summer.

BLACK RASPBERRIES

MORRISON

Morrison

THE GIANT BLACK RASPBERRY

This variety originated as a chance seedling in northern Ohio and has attracted a great deal of attention by commercial growers because of its abnormal size. The plant is an extra strong grower, being quite free from the common black raspberry diseases. Ripens somewhat later than Cumberland and has a very dark glossy color. Berries are firm in texture and high in quality. Plants are not plentiful and price is somewhat higher than commonly asked for the old varieties, but we believe a trial planting will prove they are worth more.

PRICES—1 Year No. 1 Plants

25 for \$3.00 50 for \$5.50 100 for \$9.00
500 for \$37.50 1000 for \$65.00

MORRISON AVAILABLE IN 1 YR. ONLY

CUMBERLAND KING OF THE BLACKCAPS

Most popular black raspberry today because of its great size, beauty, firmness and productiveness. The fruit is the largest of the black raspberry family, often measuring almost an inch in diameter. Cumberland is very hardy, will stand severe drought and cold weather conditions well, without injury. It sets a great many berries, and should be heavily trimmed to get best results. Wonderful canning berry, makes delicious pies and jelly. Commands top market prices. Almost disease free and very popular because of this quality. Able to grow on almost any soil that is not wet.

BOYSENBERRY

GIANT THORNLESS BOYSENBERRY

Due to the many requests of our customers, we are again listing the widely advertised Thornless Boysenberry. Berries are very large, measuring two to three inches in length. Ripen ten days to two weeks before the common Boysenberry. Fruit is sweet, delicious to eat. Also a superior berry for canning, jelly, jam or mouth-watering pies.

Strong growing vines which should be tied to a wire 2½ to 3 ft. from the ground. Prune severely every year.

LOGAN EARLY SWEET BLACK RASPBERRY

An Ohio origination. Logan ripens seven to ten days ahead of Cumberland, which allows the grower to get on the market ahead of other varieties, giving him an opportunity to make some real money. Produces immense crops of jet black berries, as large as Cumberland. Does not crumble, and the last picking looks as nice as the first. Stands severe weather conditions. A great deal of its present popularity is due to its "disease-free qualities." Of high dessert quality and fine for canning.

PRICES—1 YEAR NO. 1 PLANTS

25 for \$2.50 100 for \$ 7.50 1000 for \$55.00

BRISTOL FINE, MIDSEASON BLACK RASPBERRY

In Berrien County, which is perhaps the leading black raspberry county in the United States, the Bristol variety is rapidly coming into great popularity. It is one of the best black raspberries ever originated at the Geneva Experimental Station. The ripening season is quite early.

Berries are large, firm, fairly glossy, and of excellent quality. Bushes are hardy, vigorous, and produce a very heavy crop.

PRICES—1 YEAR NO. 1 PLANTS

25 for \$3.00 100 for \$ 9.00
50 for 5.50 500 for 37.50
1000 for \$65.00

DUNDEE HIGH QUALITY-MIDSEASON

Dundee is a promising new black raspberry notable for its high quality. The berries are large, glossy black, attractive, and quite firm. The flavor is mildly sub-acid and very good. Dundee is well worth trying for market or home use. The plants are tall, vigorous and productive. Also they are resistant to mosaic to some extent.

GOLDENETTE

Patent applied for.

THE PERFECT PEACH ➔

We call the Goldenette the perfect peach because we sincerely think there is no peach that is as good. This year Goldenette has proven to be the most desirable peach that we have. It's high in quality and a yellow freestone variety. It's as large as Hale, has a better yellow color and is the most wonderful peach for processing that we know of. It is almost perfectly round and has a very tough skin but when you once get through this skin, the inside is the most deliciously flavored peach that we have ever tasted.

Goldenette not available in Super Size.

New RED SKIN Peach

On the Chicago market last year, the New Red Skin Peach brought from \$1.50 to \$2.00 per bushel more than any other variety. This is due entirely to its red coloring and large size. It is an entirely new variety of yellow freestone. The flesh is very firm, it is a good shipper, and of excellent quality. Red Skin ripens about two days before Elberta and is a sort which we firmly believe will replace the old Elberta in a matter of time.

Our supply of trees of this variety is limited and we can offer them only in quantities up to 25 to a customer.

New

Ebony King Blackberry

FIRST TO RIPEN—GUARANTEED TO BEAR 100%

IMMUNE TO COLD WEATHER. Ebony King is very hardy, originating in Michigan, and has never winter-killed here. Each plant produces an immense quantity of extremely large fruit, which is very sweet and has little core. It is just becoming known, but is in great demand by canners, particularly on the West Coast. Ebony King is the only blackberry that we have listed and that is because it is the only one which we can guarantee to bear 100%. Due to the scarcity of blackberries today and the high price which the fruit commands, it offers growers an opportunity for making some easy money. We suggest that you try 25 or 100 plants, and we know you will regret not having planted more when they come into bearing. **PRICES: No. 1 plants, 12 for \$3.50; 25 for \$6.75; 50 for \$12.75; 100 for \$18.50; 250 for \$39.25.**

EBONY KING is the only blackberry we can furnish; all others have been discontinued.

The Finest That Money Can Buy PEACH TREES

HALEHAVEN

Early—Excellent Shipper, Canner

Colors all red long before it is ripe, and retains its richness of flavor over a long period. Is round in shape, very sweet flavor, and ripens about a week before Elberta, Freestone. Halehaven is one of the greatest shipping and canning peaches ever introduced. It was originated in Michigan. It is hardy and self-pollinizing. One of our most popular peaches here. Wonderful for distant shipping. **PRICED BELOW.**

REDHAVEN

Excellent Extra Early Market Peach

The Redhaven peach is a Michigan origination, which makes it especially hardy. It is practically the earliest peach that we have and as it carries a good red color long before it ripens, you can pick it almost any time you desire. It is an excellent shipper. Fruit is very firm, easy to handle, bright red in color, with golden firm-textured flesh. **PRICED BELOW.**

FAIRHAVEN

Early—Heavy Producer—Hardy

This is a wonderful variety and we urge the commercial planters to set it heavily. It is very hardy and during the seasons when the blossoming period is cold or foggy, it will produce a full crop of fruit when many other varieties would fail. Fruit is nearly round, mostly bright golden color, with an attractive red cheek which shows up when the fruit is still very green. Fairhaven is an excellent shipper. It matures about a week before Hale Haven and right at the end of the Redhaven season. Freestone. **PRICED BELOW.**

Halehaven

KALHAVEN

Immense—Red All Over—Good Shipper

A Michigan Peach which is a result of a cross between the J. H. Hale and the old Kalamazoo variety. Immense in size, its color and flavor are excellent. Very hardy. Fruit is large, round in shape, a beautiful red color all over, and an extremely good shipper. Ripens a few days after Elberta. Freestone and self-pollinizing. When canned presents a golden peach of outstanding flavor and texture. **PRICED BELOW.**

PERFECT HALE

A Money-Maker—Weathers Drought—Cold

A perfect flowering yellow variety. The Perfect Hale will ripen a few days after you have picked your Elberta peaches. This will lengthen your picking season a great deal. This is an Elberta type, although it is nearly round in shape. It has the rich "Hale" flavor, but its quality is about like Elberta, although it is more highly colored. Flesh is exceptionally firm, and richly flavored. Freestone. Perfect Hale has proved to be one of the best in hardiness. **PRICED BELOW.**

GOLDEN JUBILEE

Sweet and Juicy—Frost Resistant

Very early. Excellent for commercial planting. Fruit is somewhat oblong in shape and has a brilliant golden color with a slightly red cheek. It is golden-fleshed, very juicy, and a free-stone. Perfect pollinizer. The tree is extremely hardy, producing fruit when other varieties are frozen. Fruit is delicious in flavor, perfect for desserts and canning. **PRICED BELOW.**

Jerseyland

JERSEYLAND

A New Early Variety To Precede Golden Jubilee

Introduced by the New Jersey Peach Council. Early, the fruit is large and firm. Flesh is yellow and it is freestone. Ripens a few days before Golden Jubilee. Clings well to the tree. Excellent shipper. Tree is hardy, sets fruit buds freely, and comes into bearing early. Recommended for trial in sections where early peaches are profitable. **PRICED BELOW.**

WHITE HALE

Produces Every Year—Delicious Flavor

Originated on our own farm, this is the best White Peach we have ever seen. Large size, unequalled quality, freestone. Sweet as honey. Hardy. Ripens mid-season. **PRICED BELOW.**

PRICES—Jerseyland and White Hale

AMBER GEM

Frost-Proof Canning Peach

A peach that is huge in size, extremely bright red in color, tinged with yellow. A clingstone variety. The tree is thrifty, bears an enormous crop, and the peach is wonderful for canning. Extremely heavy-skinned, and the finest shipping peach we have. Very hardy. Used by commercial canners almost 100%. Does not dry rot on the tree and we should like to see every grower plant several trees for trial. **PRICED AT RIGHT.**

SPECIAL BARGAIN

Husky 18 to 30 Inch Trees

These trees are headed especially low and we can furnish them in all the standard varieties listed as follows: ELBERTA, RED HAVEN, AMBER GEM, WHITE HALE, FAIRHAVEN & HALE HAVEN. We will fully guarantee these trees in every way it is possible to guarantee a good tree. These trees will be in bunches of ten and we would appreciate it if you would keep this in mind in selecting varieties.

ELBERTA

Famous For Flavor—For Making Money

No other peach has ever attained the popularity of this variety. Elberta is the leading commercial peach. Very large, slightly oval in shape, it has golden yellow skin with a slight blush. Flesh is firm, fine-textured, and fruit has a rich flavor. Its thick skin makes it ideal for shipping. Excellent for canning, drying and freezing. Ripens medium late. It is freestone and self-pollinizing, also a good pollenizer for other varieties. Usually bears the third year—enormous producer at maturity. Trees are quite hardy, but may be affected by severe frost. **PRICED BELOW.**

GOLDEN ELBERTA

Sweet and Juicy—Good Eating

It is identical with the common Elberta with the exception that it is golden-yellow with a slight blush on the cheek. Same season of ripening, same size, same shape as Elberta. **PRICED BELOW.**

SCARLET ELBERTA

Extra Heavy Crops—Needs No Thinning

Ripens a few days earlier than common Elberta, but larger in size. Absolutely hardy. Wonderful for market purposes. Ideal for deserts and canning. Tree is vigorous, strong growing, and bears young. Sets a heavy crop but does not require thinning. Self-pollinizing. **PRICED BELOW.**

PRICES—Elberta, Golden Elberta, Scarlet Elberta, Amber Gem.

Dormant bud trees. Well branched and rooted.

Giant Cultivated BLUEBERRIES

Rubel

This year we have added four new varieties of blueberries as tests have proven that they are excellent sorts and will lengthen your picking season. These marvelous berries can be grown only on soil that is moist and has a slight acid reaction. Our supply of the new varieties is very limited and we cannot furnish them in large quantities. FREE CULTURAL INSTRUCTIONS UPON REQUEST.

BERKLEY Midseason

Berkley is perhaps the largest berry that we have and is a light blue color, carrying a lot of bloom. A very vigorous grower and a variety which is worthy of consideration for commercial planting anywhere. Ripens midseason. **PRICE:** 2 for \$2.40; 5 for \$5.50; 10 for \$10.50. Available in 2 yr. size only, limit 10 to a customer.

COVILLE Latest to Ripen

Ripens after Rubel, and Jersey. Large berries of good blue color and superior quality. Remain firm even when fully ripe and do not drop until picked. Thrifty plants. **PRICE:** 2 for \$2.40; 5 for \$5.50; 10 for \$10.50. Available in 2 yr. size only, limit 10 to a customer.

EARLY BLUE First to Ripen

This is an excellent variety—one of the very first to ripen. It is a good grower and we recommend it for test. **PRICE:** \$1.75 each; 5 for \$7.50. Available in 2 yr. size only, limit 5 plants to a customer.

BARGAIN NO. 6

Four fine blueberry plants which will soon bear enormous crops. Your choice of Rubel, Rancocas or Jersey.

3—3-yr. old plants **\$6.45**
1—5-8-yr. old plant

Net: No Discount

BLUE CROP Midseason

Midseason ripening variety of excellent size. Has made a wonderful record on tests here in Michigan. **PRICE:** \$1.75 each; 5 for \$7.50. Available in 2 yr. size only, limit 5 to a customer.

STANLEY Early Midseason

A tall vigorous grower. Produces very large berries of wonderful quality. Bush has thick shiny leaves. A good variety as companion to Rubel and Jersey. Vigorous plants, large berries, very productive. Available in 2 yr., 3 yr. and 4 yr. old plants. **PRICED BELOW.**

JERSEY Midseason

In our opinion, Jersey is superior to some of the other blueberries. The bush is very upright, vigorous, and a large producer. Fruit is enormous, very attractive, firm and sweet. **PRICED BELOW.**

RUBEL Late

This variety was one of the first to be offered to the public and is still one of the best. It is a parent of many of the present hybrids. Bush is upright, vigorous, hardy, and a heavy bearer of large fruit. **PRICED BELOW.**

BLUEBERRY PRICES ON RANCOCAS, STANLEY, JERSEY, AND RUBEL

Always set two plants for best results.

	2	5	10	50	100
2 Yr. 8-12" total height	\$ 1.60	\$ 3.75	\$ 6.95	\$28.75	\$52.00
3 Yr. 12-18" total height	2.45	4.90	8.95	39.50	72.00
4 Yr. 18-24" ready to bear	3.60	8.00	15.50	75.00	130.00
5-8 Yr. Specimen Plants					
24-30" in height, each	\$3.50	6.75	16.50	31.50	

We can make special prices on blueberries in lots of 500 or more. Set 5 ft. by 10 ft. it requires 872 plants to set one acre. Only small sizes available. 4 yr. and 5 to 8 yr. plants must be shipped by express as they are too heavy for parcel post.

Almost A Full Crop In One Year With Strong BEARING AGE PLANTS

Do you want to pick blueberries this year and get almost a full crop next year? Plant our large BEARING AGE PLANTS. Full of fruit buds now. 24-30 in. in height and from 5 to 8 years old. RUBEL, RANCOCAS & JERSEY only. Price \$3.50 each, 2 for \$6.75. See list above for prices on larger quantities.

RANCOCAS Early

The Rancocas variety of blueberry is of excellent quality, and a very good shipper. The bush does not grow as tall as Rubel, but it produces a lot of fruit over a long picking season. Always commands a good price because it is early. **PRICED BELOW.**

One of Our Bearing-Age Plants One Year After Setting [14]

APPLE TREES

ANOKA

Quickest to bear. No long waiting for fruit. Beautiful red striped fruit. Excellent to eat fresh and makes wonderful pies and applesauce. Hardy everywhere.

BEACON

Beacon ripens in early fall, carries a lot of red color, is good size, and wherever known has crowded all other apples into the background. Bears young and having originated in the north, it is a very hardy variety.

DOUBLE-RED JONATHAN

It colors up very early in the fall, and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The fruit is firm, crisp and tender.

SOLID RED WINESAP

An improved strain of the Old Stayman's Winesap. It is a large, round, cherry red winter apple. Very popular.

RED NORTHERN SPY

An improved strain of the common Spy apple. Very popular for eating and wonderful for pies and sauces.

CORTLAND

Large, dark red and good shipper. The finest of our fall apples. It is a cross between the McIntosh and the Old Ben Davis.

YELLOW DELICIOUS

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Is sweetly acid in flavor, firm, crisp and juicy.

DOUBLE-RED DELICIOUS

The tree does well practically all over the United States. Fruit is a wonderful size, is finely fleshed, juicy, and has a sweet flavor with a slight acid taste. Excellent for eating and most popular for fruit-stand purposes. Good winter apple.

WEALTHY

A fall apple, medium in size, and has a very fine flavor. Much desired for cooking and pies.

GRIMES GOLDEN

An all yellow apple. Round in shape, medium size and is quite acid in flavor. It ripens in the fall and is a good winter apple.

RED ROME

This variety is an all-red strain of the old type Rome Beauty. It is very highly prized for baking purposes. It is almost a solid red and of very large size. One of the best varieties for winter.

RED McINTOSH

A superior strain of the old type McIntosh. It is practically all red, a fine eating apple, of good size, and a delicious flavor.

R. I. GREENING

Old established sort. Yellowish green when ripe. Golden colored flesh. The best for cooking and home use.

YELLOW TRANSPARENT

This variety is good to eat long before other varieties are ready. It is yellow in color, very crisp, juicy white flesh, and has a delicious flavor.

HYSLOP CRAB

This is the only variety of crab apple that we list, as it is by far the best. Fruit is dark purple color when fully ripened and has a wonderful flavor. Used by canners for pickling, jelly, etc.

You Pick Fruit Years Sooner by Planting Thrifty *SUPER SIZE* Bearing Age Trees

If you want 6 to 12 trees and quick results, order our Super-King Size Bearing Age Fruit Trees! They will bear in half the time and can be furnished in almost any variety. By setting these large trees you save time, as it requires from 3 to 5 years to grow them in the nursery. The cost, naturally, is higher, but your extra cost is quickly returned to you by the fruit which is produced

SUPER SIZE APPLE TREES

These are large trees. They will caliper more than one inch, are heavily branched and well rooted. For varieties see page fifteen. 6-7 ft. trees, \$2.75 each; 2 for \$5.25; 5 for \$12.45.

SUPER SIZE PEAR TREES

Pear trees do not grow to a great height in the nursery but these trees will be from 5-7 ft. in height and one inch in caliper. See page twenty for the varieties in which these Super Size Pear Trees are available. 5-7 ft. trees, each \$2.25; 2 for \$4.25; 5 for \$9.95

SUPER SIZE PLUM TREES

We offer Super Size Plums in Stanley Prune only. It's the best blue plum and will bear early. 5-6 ft. trees, each \$2.25; 2 for \$4.25; 5 for \$9.95.

soon after planting. These trees require no special culture. They must be carefully planted, however, spreading out the roots in the opening and setting them deeply enough so that the wind will not blow them over. They should be carefully watered after planting and the addition of about 3 to 4 tablespoonfuls of commercial fertilizer per tree is advised.

SUPER SIZE PEACH TREES

These peach trees caliper one inch and up. Well branched, extra heavy root system. Available in all standard varieties. See pages twelve and thirteen 5-6 ft. trees, \$2.50 each; 2 for \$4.25; 5 for \$10.00.

SUPER SIZE CHERRY TREES

Available in Montmorency only. Blocky, heavy-bodied, well rooted, branched cherry trees. Will caliper more than one inch. Will bear quickly. Guaranteed to be virus free. 5 ft. up, \$2.25 each; 2 for \$3.95; 5 for \$8.85.

ALL TREES ON THIS PAGE MUST BE SHIPPED BY EXPRESS OR FREIGHT.

Bearing Age trees give you fruit several years sooner.

5 In 1 APPLE TREE

"The City-man's Apple Orchard"

The quintuplet apple is a tree that has been produced so that the small home owner, who has a restricted planting space, can have a variety of apples over a long picking season. We have budded some of the best kinds so that you will have a Double-Red Delicious, Jonathan, Winesap, Yellow Transparent, and Wealthy. These are five of the best varieties and they will bear fruit over a long period of time. The different varieties will bloom at different times and these trees can be used for ornamental purposes if desired.

These are large, 4 to 6 ft. trees, and are priced at \$2.25 each; 2 for \$4.10; 5 for \$9.75.

CAN BE SHIPPED BY FREIGHT OR EXPRESS ONLY.

Montmorency
Sour Cherry

MONTMORENCY

Hardy and Productive Sour Cherry

This is the only sour cherry that is profitable to grow. It is preferred by all canners and ripens mid-season to late. We have selected buds from the finest trees obtainable. Our trees are certified by the Michigan Department of Agriculture and are propagated from virus disease-free budwood furnished to us by the state.

COMMERCIAL GROWERS

If you are interested in Montmorency in large quantities, we will be pleased to quote you attractive prices on trees that are absolutely guaranteed in every way. However, our supply of these trees is somewhat limited this year, and we suggest that you get in touch with us promptly to avoid disappointment.

NOTICE We cannot ship fruit trees into the following states: California, Colorado, Idaho, Nevada, Oregon, Utah, Washington and Arizona.

✓ Everbearing Fig

Have Sweet, Juicy Figs in Your Garden. Our Everbearing Fig is well adapted to growing in the north. Will produce either in the field or any container in which it is planted. Fruit is good size, sweet, firm, excellent for preserving or eating.

PRICE: 18-24 in. trees \$1.25 each; 3 for \$3.15.

✓ NECTARINE

(Fuzzless Peach)

One of the most delicious of all fruits. Smooth skin of bright golden color with slightly red cheek. Hardy as peaches and require same culture. Tree is vigorous and bears young. **PRICES:** 3½-4 ft. trees \$1.50 each; 2 for \$2.90; 5 for \$6.50.

Nectarine

Full Crops of Large, Easy-to-Pick Fruit In the Smallest Yard

Plant Exciting New

DWARF FRUIT TREES

You can't beat the DWARF TREE for home orchard fruit that is quick to bear and easy to maintain. There is nothing dwarf about the fruit! Trees will bear completely in two to three years after planting and the fruit is often somewhat larger than that of the common varieties. All of our dwarf trees are budded on Malling No. 7, which is considerably more sturdy and vigorous than the smaller type, and the trees have a very vigorous root system. At maturity they will be from 10 to 12 ft. high and produce from three to four bushels of fruit each. They do equally well on all types of soil.

Dwarf Pears bear early
— often the next year
after planting.

BARGAIN NO. 9

- 1 Apple 3-4 ft. (your choice)
- 1 Pear 2-3 ft. (your choice)
- 1 Oka Cherry 2 1/2 to 3 ft.

3 Dwarf Trees

DISCOUNT

DWARF APPLE TREES

Our Dwarf Apple trees are hardy and productive, often bearing more fruit than standard trees of proportionate size. They are easy to prune and spray and the fruit is easily picked. We offer the following varieties: RED DELICIOUS, RED NORTHERN SPY, YELLOW DELICIOUS, AND YELLOW TRANSPARENT. PRICE: 3-4 ft. trees \$2.95 each; 2 for \$5.70; 5 for \$13.25.

DWARF PEACH TREES

If you want something entirely different, plant the new Dwarf Peach Trees that we offer for the first time this year. You can stand on the ground and pick most of the fruit from the trees. Naturally, they bear the same type of fruit as the common peach, but can be grown in smaller space. We offer only two varieties—RED HAVEN and HALE HAVEN. PRICE: 1 yr. 3-4 ft. trees \$2.95 each; 2 for \$5.70; 5 for \$13.25.

DWARF PEAR TREES

The trees are small but the pears are big! These beautiful heavy-bearing trees are offered in three varieties—BARTLETT, FLEMISH BEAUTY and CLAPP'S FAVORITE. These varieties are the best all-purpose pears today. Foliage and size make them ideal for landscape work. Perfect for the small yard. PRICE: 2-3 ft. trees \$1.95 each; 2 for \$3.50; 5 for \$7.95. 3-4 ft. trees \$2.50 each; 2 for \$4.75; 5 for \$12.25.

Above is a Dwarf Delicious the 3rd season after planting. These trees bear soon, have large crop of good-sized fruit.

DWARF SAPA PLUM

Red-fleshed Plum. Delicious, sweet, and juicy. Medium size. Small freestone. Produces in coldest climates. Fruit is firm, good for canning and shipping. Plant two for best results. PRICE: 3-4 ft. trees each \$1.85; 2 for \$3.60; 4 for \$6.80.

DWARF OKA CHERRY

Larger than Sweet Cherries, the fruit is dark purplish red all the way through. This hardy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular Sweet Cherries do not thrive. Sweet and delicious, fresh or canned. Small stone. Plant two for best results. Price: 2 1/2 to 3 ft. trees each \$1.85, 2 for \$3.60; 4 for \$6.80.

Sapa Plum

PLUM TREES

✓ STANLEY PRUNE

The Stanley Prune plum is without a doubt the finest and most beautiful blue plum that we have today. It is very large, very rich in flavor, and it is hardy in all sections of the United States. It is deep blue in color with a golden yellow flesh and it is absolutely freestone. The chief quality of Stanley Prune, other than its large size and beautiful color, is that it does not rot on the tree. It is quick bearing, often starting to bear the second year after it is planted. Excellent shipper. **PRICED BELOW.**

✓ YELLOW EGG

A plum that is egg shaped, very large size, and extremely sweet. Prized very much for culinary purposes. Trees grow very large, are very vigorous and very hardy. Fruit ripens late August. It is golden yellow; fine quality. **PRICED AT RIGHT.**

✓ BLUE DAMSON

Most popular of all preserving plums. Extremely high flavored. Turns a rich wine-red when preserved. Small fruit, dark blue in color, rich golden interior. Highly prized for jams and jellies. Tree is hardy, bears early and is a heavy producer. Grows 10 to 12 feet high. **PRICED AT RIGHT.**

Want A Conversation Piece In Your Garden?

Plant the new INTER-LAKEN SEEDLESS GRAPE, listed below. It's long, compact clusters of rich golden yellow fruit, against a background of bright green leaves, make a beautiful sight. Ripens late August or early September. Fruit is of a quality and flavor usually found only in California grapes.

✓ **CONCORD** Grows on all soils, producing enormous crops of large blue-black berries of highest quality fruit. Highly resistant to drought, insects and diseases. Ripens mid-September. America's leading wine and table grape. **Huge 3 yr. plants, 85c each. Other plants PRICED ABOVE.**

✓ **SENECA** Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage. **Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.**

✓ **VAN BUREN** Luxuriant grower, producing compact and well shaped bunches of blue-black color. Exceptionally sweet. Extremely early, ripening 3 to 4 weeks before any other grape is on the market. **Prices: 1 yr. No. 1 plants, 75c each; 5 for \$3.50; 10 for \$5.00; 50 for \$17.50.**

✓ **INTERLAKEN** Frankly, this is one of the finest of the new grapes we have ever seen in Michigan. Fruit is very sweet, flavor similar to the Thompson seedless. It has absolutely no seeds. Good grower, will withstand severe temperatures. **Price: 1 yr. plants, 75c each.**

✓ **GOLDEN MUSCAT** Bunches are of good size, brilliant yellow in color, and have a delicious flavor. Will do well wherever the Concord grows. Excellent shipper and producer. **Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.**

✓ **NIAGARA** Leading commercial white grape. More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord. **PRICED ABOVE.**

✓ **FREDONIA** A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper. **Huge 3 yr. plants, 85c each. Other plants PRICED ABOVE.**

✓ **DELAWARE** Small, compact bunch. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord. Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy. **PRICED ABOVE.**

NEW FRENCH HYBRID GRAPES

See Back Cover.

Seneca

PEAR TREES

BARTLETT

The favorite commercial pear. Fruit is very large, juicy, golden yellow in color, with a soft blush. It is quite uniform in shape. Favorable for shipping, canning, and eating.

The tree is a strong grower and produces very young. Hardy. **PRICED BELOW.**

CLAPP'S FAVORITE

Perhaps the largest of all pears, and always tops the market because of its excellent appearance. Greenish yellow skinned with a dark red blush. Quite juicy and sweet. A good shipper. Ripens shortly after Bartlett. **PRICED BELOW.**

FLEMISH BEAUTY

A pear that is honey sweet in flavor when fully ripe. Medium to large size, pale yellow colored with reddish brown cheek. Flesh is fine-grained, very juicy. Tree lives to a remarkably old age. Fruit ripens about the same time as Bartlett. **PRICED BELOW.**

BOSC

A favorite West Coast pear because it ships so well. A very long-necked pear which is used for boxing purposes, but is highly desirable because of its excellent flavor and shipping qualities. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. Tree bears young and is hardy. It is a rather slow grower but very productive. The fruit has a long stem which enables it to cling to the tree even in heavy winds. Ripens late September. **PRICED BELOW.**

Flemish Beauty.

Bartlett

LAWSON

This pear, which is about the same size as Bartlett ripens 50 days before Bartlett. It comes on the market when no other pears are to be had. It is golden yellow with a brilliant red cheek. Hardy and free from blight. **PRICED BELOW.**

SECKEL

Always in market demand and equally valuable for home use. Medium sized pear; ripens late September. Delicious flavor and quality—sweet as candy. Every garden should have a Seckel. **PRICED BELOW.**

Starglow APRICOT

VERY HARDY, ORIGINATING IN MICHIGAN

This marvelous apricot originated in central Michigan and is of very large size, brilliant yellow color, marvelous flavor and absolutely freestone. Especially hardy and late flowering, which is very desirable in all apricots. Starglow apricots will produce a crop of fruit for you where most of the other apricots will fail. Self pollinizing. **PRICE: 3-4 ft. trees \$1.65 each; 3 for \$4.50; 10 for \$13.25. 4½ ft. and up \$2.15 each; 3 for \$5.25; 10 for \$14.95.**

GOLDBECK PERFECTION APRICOT

A perfect variety for vigor and hardiness. Very uniform in size, averaging that of medium sized peach. Delicious Flavor! Rich, golden colored apricot-yellow, ripening evenly all over. Can be picked tree ripe for shipping. The finest apricot today. **Prices: 3-4 ft. \$1.50 ea.; 3 for \$3.75; 10 for \$11.95. 4 ft. up \$1.95 ea.; 3 for \$4.50; 10 for \$12.50.**

[20]

ORANGE QUINCE

We list only one kind of Quince, which is the Orange variety. This is a dwarf growing tree which should be planted about 12 to 14 ft. apart. The foliage is very leathery, disease resistant and quite dark in appearance. Orange Quince is hardy in practically all sections. The fruit is as large as a good sized apple, golden yellow in color. This variety is valued very highly for preserving or jelly making.

Price: 3-4 ft. trees each \$1.75; 3 for \$5.00; 6 for \$9.00.

Money-Making Pedigreed ASPARAGUS Plants

New PARADISE

Early, Easy to Grow, Rust Resistant, Immense Money Maker

The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will any other known variety today. It is rust resistant, producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

Paradise asparagus offers you a great opportunity to make money. These fine large rooted plants, produced from expensive pedigreed seed, enable you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care. We have complete culture on asparagus, ask for it when ordering.

MARY WASHINGTON

The pedigreed seed that we use produces specimen stock often more than an inch in diameter. It is very crisp and delicious. Wonderful for canning. The heads of Mary Washington are very solid and compact; thus, always commanding a better price than asparagus that has loose heads. This variety is absolutely rust resistant. Grows very fast and comes up exceedingly thick in the row, producing a very heavy crop. Approximately 5,000 plants are required to set an acre. Once planted they last for years, requiring little care. Starts to bear in Michigan in May and continues for about two full months.

Dwarf Tangerine

DWARF TANGERINE

The Dwarf Tangerine which we offer is an extraordinary house plant. It is easy to grow, has beautiful glossy-green leaves and dainty fragrant flowers. These are followed by small, edible, deep orange fruits. **PRICE: Strong plants from 2 1/4 in. pots, 90c each; 2 for \$1.70.**

DWARF LEMON

(Grows Lemons indoors on small plants.) Most unique plant ever offered for indoor culture which was originally known as the Ponderosa Lemon. Covered with waxy-white, very fragrant flowers several times a year, followed by large lemons often weighing a pound. **PRICE: 2 1/4 in. potted plants 85c each; 2 for \$1.60.**

[21] American Wonder Lemon

Canada Red RHUBARB

The Chipman strain of Canada Red Rhubarb is the finest obtainable today. It is a decided improvement over the common Canada Red. It is a beautiful cherry red all the way through. Color and flavor sell it readily. **PRICES: Large Divisions, each 65c; 3 for \$1.80; 10 for \$5.50; 100 for \$45.00.**

Valentine RHUBARB

Newest of the red varieties. Developed in Canada and very hardy. Its large stalks are extremely dark red in color. Flesh is very tender and has a fine flavor. Produces a bright red sauce. Excellent for pies! **PRICES: Large Divisions, each 85c; 3 for \$2.40; 10 for \$7.50; 25 for \$17.50.**

MacDonald RHUBARB

A Canadian origination, it is bright cherry red the full length of the stalk. Stalks are very large and this variety is a huge producer. Plants are healthy, strong growers, producing long deep red to pink ribs of very fine flavor. Especially suitable for field growing.

PRICES: Large Divisions, each 65c; 3 for \$1.80; 10 for \$5.50; 100 for \$45.00.

A BEAUTIFUL LIVING BARBED WIRE FENCE

MULTIFLORA ROSE

Low Initial Cost—No Repairs

The Multiflora Rose is a living fence, is an aid to soil conservation, and it seems to be adapted to almost the entire Country. Grown on soil of average to good fertility, it will produce a hedge in three to four years that will turn any kind of livestock except small hogs and poultry. In May or June, a Multiflora Rose fence presents a spectacle of a ribbon of bloom running over the hillside. The white or dusty pink bloom comes all at once and lasts about two weeks. Foliage appears early in spring and persists until heavy frosts of winter. Multiflora Rose is a natural habitat for game birds and wild life of all kinds.

PRICES: 15-18 in. JUMBO GRADE

25 for \$2.75	100 for \$ 8.25
50 for 4.95	500 for 37.50
	1000 for \$65.00

Stock-Proof and Well-Behaved

Multiflora Rose is offered to those who realize that they can save a great deal of money by planting this type of hedge instead of putting in posts and wire. Will grow and thrive under any conditions and does not spread from the roots. As it grows older, it continues to grow thicker and higher. Multiflora Rose, ordinarily, is planted about 12 in. apart in the row. If a tighter fence is desired, set plants 6 to 8 in. apart.

Hardy Ornamental HEDGES

SPIREA VANHOUTTEI

Bridal Wreath. During June its branches are literally covered with delicate white flowers. Beautiful bright green leaves come early and stay late. Very hardy and thrifty. 12-15 in. **Well Branched Plants,** each 25c; 10 for \$1.95; 25 for \$4.20; 50 for \$7.00. 18-24 in. **Extra-Heavy Plants** each 30c; 10 for \$2.75; 25 for \$4.95; 50 for \$9.00.

AMOOR RIVER PRIVET

Succeeds anywhere, perfectly hardy. Shiny dark green leaves from early spring until late fall. Not subject to blight—resistant to insect pests. Trim to desired height and shape at any time during the summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant 2 rows, alternating the plants. 2 yr. 12-15 in. **branched plants** 10 for \$2.15; 25 for \$4.55; 50 for \$7.25; 100 for \$12.50. 18-24 in. **branched plants** 10 for \$2.65; 25 for \$5.15; 50 for \$8.65; 100 for \$14.50.

← Dwarf Blue Leaf ARCTIC HEDGE

Dwarf Blue Willow. Low growing, excellent for hedges. Leaves cluster thickly from ground up. Foliage is a lovely gray-blue. Grows anywhere, even on wet or heavy soils. Matures into a beautiful thick hedge, up to four feet tall if allowed to grow naturally. Set plants 8 in. apart. **PRICE: WELL ROOTED PLANTS, 12-15 in.; 3 for \$1.20; 10 for \$3.50.**

SPECIAL FENC- ING BARGAIN

We have grown a special lot of Multiflora Rose which will run in height from 12 to 14 in. and we are making you a bargain price on these in lots of 500. Enough to set a 400 to 500 ft. hedge or fence. Due to this low price, we cannot sell these plants in lots of less than 500. **HEAVILY ROOTED PLANTS. 500 for \$25.50. NET, NO DISCOUNT.**

Silver Maple

Moraine Locust

Wisconsin Willow

Lombardy Poplar

Golden Willow

Tulip Tree

Chinese Elm

European White Birch [23]

For Beauty and Comfort, Plant HARDY SHADE TREES

MORaine LOCUST Pat. No. 836

A very fast growing improved honey locust. It is absolutely thornless and vase shaped and fast spreading when older. It thrives under city conditions. Very tolerant of smoke, soot and dust. The foliage allows enough light to penetrate so that the grass will grow directly up to the trunk of the tree. It is very hardy, seedless and will grow on heavy or light soil and will withstand drought or flood. The supply is limited. **PRICES:** 5-6 ft. each \$5.00; 2 for \$9.80; 4 for \$19.00.

SILVER MAPLE

Most rapid grower of all maples. At maturity it reaches a height from 60 to 70 feet. Dark green leaves with a silvery surface underneath, turning gold in the fall. Thrives on all kinds of soil. **PRICES:** 4-5 ft. trees, each \$1.25; 2 for \$2.40; 5 for \$5.50; 10 for \$10.50.

EUROPEAN WHITE BIRCH

Hardy, tall-growing, upright lawn tree of distinctive character, its creamy white bark contrasting sharply with its foliage. Will thrive on either wet or dry soils. 4½-5 ft. trees, each \$1.85; 2 for \$3.40; 5 for \$8.00.

GOLDEN WEEPING WILLOW

Has golden yellow bark with narrow green leaves. Slender branches hang in a beautiful arch to the ground. Hardy, fast grower. 4-5 ft. trees, each 95c; 2 for \$1.75; 5 for \$4.10.

CHINESE ELM

Fastest growing shade tree today. Extra hardy, withstands cold winters, thrives on poor soil. Useful for windbreaks, and specimen planting. 4-5 ft. trees, each \$1.25; 2 for \$2.40; 5 for \$5.75; 5-6 ft. trees, each \$1.45; 2 for \$2.80; 5 for \$6.75.

WISCONSIN WEEPING WILLOW

A graceful tree with drooping branches sweeping the ground. Long slender green leaves and hardier than the ordinary Babylonica. Rapid grower. 4-5 ft. trees, each 95c; 2 for \$1.75; 5 for \$4.10.

LOMBARDY POPLAR

Well known for its tall, slender, upright growth. Rapid grower on any soil. Dark green leaves, lighter shade on under side, roots do not clog drains. 3-4 ft. trees, each 65c; 2 for \$1.20; 5 for \$2.75. 5-6 ft. trees, each 85c; 2 for \$1.60; 5 for \$3.75.

TULIP TREE

Tall pyramidal, with broad glossy leaves. Bears tulip-like flowers of white with green centers in June. Excellent for street or lawn. 3-4 ft. trees, each 90c; 2 for \$1.70; 5 for \$3.95.

CRIMSON KING RED NORWAY MAPLE

(Patent No. 735)

The Crimson King Maple is one of the most beautiful of all red-leaved trees. Grows identical with the common maple and is the same size, but has deep red leaves from early spring until late fall. Originated in Norway and is therefore entirely hardy. Creates a sensation wherever grown. These 2 yr. old trees will grow rapidly and become beautiful showy trees in a short time. Order your Crimson King Maple early as the demand exceeds the supply available, year after year. **PRICE: 4-5 ft. trees each \$3.75; 2 for \$7.00; 4 for \$13.00. NET, NO DISCOUNT.**

MAGNOLIA—Soulangeana

Magnolia Soulangeana is the most popular of the magnolias. Delightful fragrant blossoms appear very early in spring. Produces large rose-pink blooms long before any leaves appear. Reaches a height of 10-15 feet at maturity. Very ornamental. **18-24 in. trees. \$2.85 each; 2 for \$5.00.**

RED LEAF PEACH

Brilliant Red Foliage All Year

We offer this brilliant red-leaved tree as something quite new in the ornamental field. It is not only decorative, but produces worthwhile fruit at the same time. Its habits of growth are practically identical with the common peach, and its deep rose colored blossoms, against the red foliage, produce a very pleasant picture when set among other plantings. Fruit is white and highly flavored. Ideal for pickling. **PRICES: 3-4 ft. trees, each \$1.45; 2 for \$2.50; 10 for \$11.95. 4½-6 ft. trees, each \$1.65; 2 for \$3.00; 10 for \$13.95.**

Mountain Ash

MOUNTAIN ASH

A very popular tree all over America. In late summer it is laden with clusters of bright red berries against a background of lacy green foliage. Hardy and one of our most beautiful ornamental trees. May be trimmed as desired. At maturity attains a height of 18 to 25 feet. **PRICE: 3½-5 ft. trees, each \$1.95; 2 for \$3.50; 10 for \$16.50.**

RED DOGWOOD

(*Cornus Florida Rubra*) Produces a great profusion of large rose-red flowers in the spring. Heavy with glossy red berries in the fall. Attractive grayish green foliage in the summer, turning a rich crimson in early autumn. Tree grows 10 to 15 feet tall. Well suited for small yards. Adds greatly to any landscape picture. **PRICE: 2-3 ft. trees, each \$2.75; 2 for \$5.00; 10 for \$22.50.**

Red Dogwood

Unusual, Exciting Flowering Trees

White Flowering Dogwood

✓ MAY DAY TREE

The first tree to leaf out in the spring and the first to bloom. Fragrant trusses of pure white flowers cover the entire plant during April and May. Flowers resemble Lilacs in shape and are lovely for cutting. Grows rapidly and is hardy. 2-3 ft. trees, each \$1.95; 2 for \$3.70.

May Day Tree

Flowering Peach

WHITE FLOWERING DOGWOOD

Large, white flowers with an extra row of center petals. Red berries in the fall, also the leaves turn red. Grows to a height of 10 to 15 feet at maturity. May be trimmed as desired. 3-4 ft. trees, each \$1.55; 2 for \$3.00.

FRENCH PUSSY WILLOW

Silky gray catkins burst forth to decorate the brown twigs early in the spring. Branches may be cut in mid-winter for bouquets in the house. Large tree-like shrub with long narrow leaves. 18-24 in. plants 80c each; 3 for \$2.25.

BECHTEL'S FLOWERING CRAB

A hardy, small, flowering tree. Compact grower, prune as desired. Double flowers of delicate pink resembling small roses, completely cover the branches in early spring. Very fragrant. Ideal for small lawns. Distinct lobed leaves. PRICE: 3-4 ft. branched trees, each \$1.95; 2 for \$3.80; 4 for \$7.00

Bechtel's Crab

✓ HOPA CRAB

Most beautiful flowering crab that can be grown in the north. Absolutely hardy. Graceful, medium sized tree strikingly ornamental. Buds are blood-red, flowers deep rose colored. 3-4 ft. trees, each \$1.65; 3 for \$4.35.

FLOWERING PEACH

Flowers appear early in spring before the tree leafs out and are very thick. Height about 15 ft. at maturity. Available in RED or WHITE flowers. State color. 3½-5 ft. trees, each \$1.30; 3 for \$3.60.

SMOKE TREE

Purple Fringe Smoke Tree. Strikingly different shrub. Hardy and easily grown. In late summer and fall it is covered with fine, purplish, misty-looking flowers which give it a smoky appearance. Flowers are long lasting. 18-24 in. trees, each 85c; 3 for \$2.40.

French Pussy Willow

✓ DOLGO CRAB

Tree is dwarf in size but grows fast. Produces small bright red apples and the bloom is a fiery red. Bears very early in the spring and the fruit is very edible in fall and will jell easily. PRICE: 4-5 ft. trees \$1.25 each; 3 for \$3.25.

Hopa Flowering Crab

Smoke Tree

EVERGREENS *for Year Around Beauty*

SPINY GREEK JUNIPER

Its usual habit is narrow and columnar, with many erect branches and branchlets. Foliage is spiny, with sharp points and of a glaucous blue color. Makes a very dense growth, eventually reaching a height of 5 ft. at maturity. May be trimmed as desired. **PRICE:** 10-12" Transplants each \$1.50; 3 for \$3.75.

COLORADO BLUE SPRUCE

The Colorado Spruce is without a doubt one of the finest of blue-type evergreen trees. It grows to a great height and is an ornamental tree of glistening silvery blue from early spring to midsummer. Originated in the cold section, it is very hardy and is perhaps the most showy and popular of all spruce trees. We have grown a fine lot of this spruce, the seeds taken from carefully selected trees so as to obtain the very finest color. **PRICE:** 10-12 in. heavy transplants each \$1.65; 3 for \$4.50; 5 for \$7.00.

SPREADING YEW

This type of Yew is similar to the Pfitzer. Branches out from the bottom into a low bushy formation. Can be trimmed to desired height or to fit space. Foliage dark green. One of the most popular evergreens. **Price:** 10-12 in. heavy plants each \$1.95; 3 for \$5.40.

HATFIELD YEW

Grows in columnar erect form. Vase-shaped. Color is extremely dark green, the foliage heavy and luxuriant. Very hardy, easy to grow, and does well in shade. Somewhat resembles Hicks Yew. **PRICE:** 10-12 in. transplants each \$1.85; 3 for \$4.50.

Pfitzer's Juniper

Favorite of all spreading Junipers. Low, spreading bush with plume-like branches. Beautiful silvery blue-green foliage. Very hardy and will stand considerable shade. A favorite for foundation planting. **PRICE:** 10-12 in. heavy transplants each \$1.85; 3 for \$4.50.

Pyramidal Arborvitae

A favorite for entrances. Grows tall and narrow. One of our leading evergreens, it grows rapidly, has a shapely pyramidal habit and is easily trimmed. Very popular in this part of the country. **PRICE:** 18-24 in. heavy plants each \$1.95; 3 for \$5.40; 2-3 ft. each \$3.25; 3 for \$8.95.

Grow More Beautiful Each Year

MUGHO PINE

The leading Dwarf Evergreen. Numerous side branches begin close to the ground, spreading horizontally and turning upward in regular growth. Grow in shade. **PRICE:** 6-8 in. spread 85c each; 3 for \$2.40; 10 for \$7.50.

We recommend to you Popular Gardening, America's new all-garden magazine. It will help you grow better flowers, fruit, vegetables and shrubs. A special introductory order form for customers is enclosed.

COUNT

EUROPEAN LARCH ↑

This is an upright conical grower. Begins to grow at low temperature with soft, feathery light green foliage early in spring. Again in autumn it is very beautiful as its needles turn a golden color before falling. One of our best lawn trees. **PRICE:** 12-18 in. trees, \$1.00 each; 3 for \$2.75.

BABY EVERGREENS

Save Money—Grow Your Own Specimen Plants

Although these Baby Evergreens are small, they are very heavily rooted. We suggest that you plant them in your garden and grow them there for two or three years before transplanting them to their permanent location. These small evergreens are very useful in the control of soil erosion, also within a few years, they will make an adequate windbreak if planted in rows. We offer you the following varieties:

COLORADO BLUE SPRUCE..... 6-8 in.
NORWAY SPRUCE..... 6-8 in.
SCOTCH PINE..... 6-8 in.
PYRAMIDAL ARBORVITAE..... 6-8 in.

HATFIELD YEW..... 4-6 in.
SPREADING YEW..... 4-6 in.
PFITZER'S JUNIPER..... 4-6 in.
CANADIAN HEMLOCK..... 6-8 in.

PRICES: 3 for \$1.90; 10 for \$5.25; 50 for \$22.50.

CLIMBING ROSES

For Porches, Fences, Trellises and Arbors

For display and for color, hardly anything can equal the climbing roses in full bloom. If they are used on porches, fences, trellises, or arbors, they greatly improve their beauty. All that we list are hardy. Plant 3 to 4 feet apart.

SILVER MOON—large buds, creamy white flowers with a faint ivory tinge and golden stamens.

PAUL'S SCARLET CLIMBER—intense scarlet flowers of excellent shape and good size, borne in clusters.

PRIMROSE—hardy, double canary-yellow roses.

NEW DAWN, EVERBLOOMING CLIMBING ROSE—apple blossom pink flowers with old-rose fragrance.

PRICE: 95c each; 3 for \$2.70.

Paul's Scarlet Climber

Hardy Chrysanthemums

The Hardy Chrysanthemum is one of the most popular flowers today, producing from three to seven hundred blossoms per plant and the bush increases in size as it grows older. Easy to grow in ordinary soil in full sun or part shade. They are a solid mass of flowers all fall until extremely cold weather arrives. You'll pick many bouquets and still these fall favorites will blaze with color. We list them in five different colors: **red, yellow, pink, white and bronze.** Our plants are all field grown and of good size and are priced right. **PRICES: each 40c; 3 for \$1.05; 10 for \$2.95. NET, NO DISCOUNT.**

Hardy PHLOX

The Phlox that we list are all hardy field grown No. 1 plants; produced on soil specially prepared in advance for these plants and heavily fertilized. Digging them with our power digger gives them extra large root systems and gives you much more additional root system than ordinarily. They can be furnished in the following varieties:

Mary Louise—Pure white florets; large compact heads.
Salmon Glow—Flame pink with salmon. Vigorous grower.
Blue Boy—Nearest to true blue.
Chieftan—Deepest crimson.
Pinkette—Soft appleblossom pink.
Flash—Brilliant scarlet-red. Prolific bloomer.
Spitfire—Brilliant orange scarlet. Outstanding.

PRICE: Each 35c; 3 for 95c; 10 for \$2.95. NET, NO DISCOUNT.

HARDY TUBEROUS BEGONIAS

Camellia Flower Begonias
 Should be planted in partial shade. The begonia is a most glorious flower, exquisitely colored. Flowers double and well shaped; broad leaves. Our bulbs are selected and will bloom this year. Colors: Red, White, Pink, Yellow, Scarlet and Salmon.
PRICES: 3 for 60c; 6 for \$1.00; 10 for \$1.50; 25 for \$3.50.

HARDY CARNATIONS

We list only the hardy type Grenadin and we can furnish you these beautiful carnations in five colors: **Triumph** — pink; **King of Blacks** — dark velvety maroon; **Golden Sun** — yellow; **Scarlet Prince** — red; **Purity** — white. They bloom practically all summer. They are wonderful for bouquets and very fragrant flowers in single, semi-double and double blossoms on the same plants at various times. Can be shipped during April and May.
PRICES: each 35c; 5 for \$1.50; 10 for \$2.75. Net, No Discount.

Hardy Flowering Shrubs

Rose Gardenia

CALYCANTHUS

(SWEET SHRUB) An old garden favorite. Fragrant shrub with chocolate colored flowers and shiny green leaves. Blooms from May until October. **Field-grown 18-24 inch, 80c; 3 for \$2.20.**

ROSE GARDENIA

Creamy white blossoms, very fragrant with thick glossy foliage. Grow it in pots and enjoy its beauty the year around. Very strong plants. **Blooming age plants, \$1.00 each; 2 for \$1.95.**

AZALEA MOLLIS

A new hardy Azalea Mollis which stands 10 to 15 below zero without damage. Grows 3 to 4 feet tall. Blooms in May and June with striking flowers of variegated colors. Prefers partial shade and acid soil. **2 yr. field grown plants \$1.40 each; 3 for \$3.60.**

HONEYSUCKLE, PINK TARTARIAN

Bright pink flowers in spring, loads of bright red berries in the fall. Thrives in shade or sun. Reaches height of 5 to 6 feet. Very hardy. **Field grown plants 80c each; 3 for \$2.20.**

FORSYTHIA

Golden Bell. Golden blossoms cover every limb and twig before leaves appear. Grows 8 to 10 ft. tall. Thrives in sun or part shade with ordinary moisture. **2 yr. plants 80c each; 3 for \$2.20.**

FLOWERING ALMOND

Blooms very early in spring, before leaves appear. Completely covered with small double shell pink flowers which resemble small roses. Grows 3 to 4 feet tall. **18-24 in. trees, 90c each; 3 for \$2.55.**

DOUBLE FLOWERING ALTHEA

(Rose of Sharon). Large double blooms from midsummer until winter. Attains height of 6 to 8 ft. Ideal for backgrounds or borders. **Red or White. Field-grown 85c each; 3 for \$2.40.**

SPIREA ANTHONY WATERER

A dwarf growing spirea. At maturity reaches a height of 1½-2 ft. Blooms most of the summer. Flowers pink and white. **2-yr. blooming age plants each, 85c; 2 for \$1.60; 4 for \$3.00.**

BUDDLEIAS

(Butterfly Bush) Also frequently referred to as "Summer Lilac." Blooms from early summer to frost, with panicles often 15 to 18 in. long. Flowers are fragrant and profuse. Available in **CHARMING** (Pink) **ILE de FRANCE** (Rosy-purple), **DUBONNET** (rich wine-red with slight purple overcast), and **EMPIRE BLUE** (Pat. No. 557). Buddleia plants consist of roots only, with a small dead top for handling. **STRONG FIELD GROWN PLANTS 85c each; 3 for \$2.40.**

HIGH BUSH CRANBERRY

Blossoms in spring and bears edible fruit of excellent flavor in fall, when foliage turns red and gold. Hardy. **Field-grown plants each 95c; 3 for \$2.70.**

PHILADELPHUS VIRGINALIS

(Double Mock Orange) White. Everblooming. Blooms profusely in June and intermittently until frost. 6 to 7 ft. at maturity. **Strong field-grown plants 85c each; 3 for \$2.40.**

HANSEN'S BUSH CHERRY

White flowers in spring, maroon-red leaves in fall. Tasty fruit is plum-shaped and the size of a sweet cherry. Easy to grow. **18-24 in. plants 70c each; 3 for \$1.95; 10 for \$6.00.**

ROSE TREE OF CHINA

(*Prunus Triloba*) Beautiful hardy flowering plum, covered with small full double rose-like pink blooms before leaves appear. Grows to height of about six feet. **2-3 ft. trees each \$1.55; 3 for \$3.90.**

MOCK ORANGE

Fragrant white flowers in early spring, closely resembling orange blossoms in form and fragrance. A tall bush with dark green foliage. Very hardy. Fine for foundation and in group plantings. **Strong field-grown plants each 75c; 3 for \$2.10.**

HYDRANGEA P. G.

(Hills of Snow) Very hardy and especially good in partial shade. Large clusters of snow white flowers changing to light pink later on. **PRICE: 2-yr. field grown plants each, 95c; 3 for \$2.70.**

Lovely For Every Purpose

Make a Home Out of a House

TAMARIX HISPIDA

Very dense, silvery-blue feathery foliage. Bright pink flowers all summer. 10 to 15 ft. at maturity but can be pruned to desired height. 18-24 in. plants each 75c; 3 for \$2.10.

BLUE HYDRANGEA

Prefers acid soil and does well in shade. Blue color is produced almost entirely on new wood and pruning is recommended, as flowers on old wood may show pink the second year. At maturity this Hydrangea will be 2 to 3 ft. in height and a solid mass of blue flowers. **Strong field grown plants. PRICE: \$1.50 each; 3 for \$4.05.**

Red Flowering Quince

(Japan) Very early in spring this shrub is covered with bright orange to scarlet flowers, followed by small fragrant quince-shaped fruits. Grows 5 to 7 ft. tall. 18-24 in. each 85c; 3 for \$2.40.

WHITE SNOWBERRY

A desirable shrub with small pink flowers followed by large white, wax-like berries which cling through most of the winter. Very showy. Succeeds anywhere. 18-24 in. plants. **PRICE: 85c each; 3 for \$2.40.**

Blue Hydrangea

Tamarix Hispida

Red Snowberry

Pink flowers in June, followed by red berries in clusters the full length of graceful branches. Does well in sun and shade. Grows to medium height. 18-24 in. plants. **PRICE: 85c each; 3 for \$2.40.**

Weigela Rosea

Tall and vigorous growing with trumpet-shaped, rosy-pink flowers in thick clusters along each branch in June. Grows 4 to 5 ft. tall and may be trimmed as desired. 18-24 in. field grown plants. **PRICE: 85c each; 3 for \$2.25.**

STAINLESS STEEL HOES

The reason that we offer this commodity to our customers is that we have been so impressed with the lightness and sturdiness of this hoe. It is made of stainless steel and will not rust so when you get ready to hoe in your garden, it is always polished and ready to go to work. It is about four times stronger than ordinary metal and the blade is much thinner, thus making it easier to manipulate. The shanks of the hoe are all in one solid piece and the metal is guaranteed for the life of the hoe.

Hoes No. 1, 3, 10 & 11 can be furnished with handles of aluminum tubing. Hoes No. 5, 6 & 7 have sturdy wood handles.

Please Order by Numbers.

HARDY HAZELNUTS

The Hazelnut trees which we offer are nursery grown stock and will be well rooted and branched. Makes a fine well-branched shrub, 5 to 6 ft. tall and very attractive. Bears very early. In fall leaves turn scarlet and bronze and the bush will be completely covered with nuts. Grows almost anywhere and produces huge crops. Set two or more for best results.

PRICES: 18-24 in. 2 yr. br. trees 90c each; 3 for \$2.55; 10 for \$7.95.

Butternut

BUTTERNUT

This native nut tree grows in almost every section of the United States. Attains large size at maturity. Starts to bear very early, about 3 to 5 years of age, and will produce a crop annually. The native Butternut is a conical shaped nut that is very nutritious, carrying a very large amount of oil. Grows easily. Trees make excellent shade and you can plant them in any corner or other sections where ordinary trees cannot be produced, as they require no spraying. PRICES: 2-3 ft. trees each 85c; 2 for \$1.60; 5 for \$3.75; 25 for \$17.50. 3-4 1/2 ft. trees each \$1.10; 2 for \$2.00; 5 for \$4.75; 10 for \$9.25.

Hardy ENGLISH WALNUTS

NORTHERN GROWN—THIN SHELL

Plant Nut Trees For Profit, Beauty Shade and Pleasure

The hardy English Walnuts which we handle are all direct descendants from the original seed which was sent here from the Carpathian Mountains. Their hardiness, rapidity of growth, their long life and beauty, and finally their timber, makes them very desirable. Besides this, they produce large quantities of edible nuts and add greatly to the value of any property on which they are planted. These trees are not always fertile, therefore we suggest that more than one be planted for cross-pollination and guaranteed success.

The Carpathian English Walnut is of the paper shell type. Very hardy. Produces nuts varying in size from that of the California English Walnut to three times its size. PRICES: 2-3 ft. trees each \$2.85; 2 for \$5.40; 5 for \$13.00. 3-4 ft. trees each \$3.40; 2 for \$6.50; 5 for \$15.50.

PLANTING PYRAMID

Planting Pyramid is rustproof and fully guaranteed. Diameter 6 ft. 6 in. with three circular tiers to retain soil. Wt. 19 lbs. 4 oz. Each kit shipped ready for assembly, with full instructions. Requires about 75 plants. Plant everbearing varieties for continuous fruit. Also adaptable to flowers, vegetables, etc. PRICE: PREPAID—\$9.95 each; 3 or more at \$9.00 each.

KRAL HICKORY NUTS

We are offering the Kral Hickory Nut again this year. It is absolutely new in Hickory Nuts. The parent trees were grown about fourteen miles from us and it produces nuts of extremely large size, with very good cracking possibilities. This is a wonderful Hickory Nut and we price the trees at a figure which you cannot afford to overlook. If you want a good Hickory Nut, plant one or two of these.

Hickory
Nuts

PRICES: 18-24" trees each \$1.75; 2 for \$3.00.

NATIVE BLACK WALNUT

Black Walnuts are grown from seed produced on our own farms from the Thomas, Stabler, and Weird varieties. While not as thin shelled as the nuts from cultivated trees, they are excellent and you still have a better Black Walnut. These trees are hardy anywhere in the U.S. and thrive in sunny, well-drained soil. Fast growing and long lived. PRICES: 3 1/2-4 ft. each 95c; 5 for \$3.95; 25 for \$18.75; 50 for \$35.00.

[illegible]

PLEASE LIST BELOW NAMES AND ADDRESSES OF NEIGHBORS OR FRIENDS WHO MAY BE INTERESTED IN RECEIVING OUR CATALOG.

SHIPPING RATES AND INSTRUCTIONS

PARCEL POST: We have arranged a schedule for you below so that you can see approximately what the weight of your shipment will be and in what section you are located. Figure the approximate weight of your shipment and see your local Postmaster for the approximate amount of postage for same. After your order is shipped and if we find you have sent too much money, we will refund same to you at once. Owing to the impossibility of determining anywhere near the accurate cost of shipping stock by parcel post, we recommend that it be sent C.O.D. for postage. If parcel post shipment is requested and shipping charges not included, we naturally assume that you want plants shipped C.O.D. for the postage.

APPROXIMATE WEIGHT OF PLANTS

Strawberry plants will weigh 5 pounds per hundred when packed and shipped separately. If shipped in thousand lots they will weigh approximately 40 pounds per thousand.

Asparagus plants will weigh approximately one pound for 25 one-year and 1½ pounds for 25 two-year plants

Blackberry plants will weigh 4 pounds per 25 plants

One-year Raspberry plants will weigh approximately 5 pounds for 25 plants; two-year plants will weigh about 15 pounds for 25 plants.

Only small size trees can be shipped by parcel post. They will weigh approximately 1½ pounds each when packed. Due to careless handling in transit, single trees are often damaged and we therefore recommend ordering more than one tree whenever possible.

EXPRESS: Shipments of nursery stock take a second class rate and are sent collect for the exact amount of shipping cost. Owing to the lower cost of shipping by parcel post at the present time, we recommend that shipments up to seventy pounds be sent by mail. Generally all shade and fruit trees and large quantities of stock must be sent by Express. We have worked out this plan of shipping to be the best way for you, with the least cost to you.

FREIGHT: Freight can be used when orders call for several hundred fruit trees or several thousand cane plants, and are to be shipped during early March or April.

Strawberry Plants Are Never Shipped By Freight: If undecided as to how to have your order sent, just give us your post office and nearest shipping point and we'll route the cheapest and safest way.

YOUR REMITTANCE: Send a postal or express money order if possible; cash should be sent by registered mail, for we will not be responsible for loss if mailed in the ordinary manner. Personal checks will be accepted.

Prices in this catalog are good only for the spring and fall of 1955. However, should inflation, state or federal legislation add to our costs, we reserve the right to add to prices to cover increases.

If we have your name or address incorrect, or you are receiving more than one catalog at your address, please advise us so that we can change our mailing list accordingly.

Hardy ENGLISH WALNUTS

It has only been in recent years that these Hardy English or paper shell Persian Walnut trees have been available. These trees grow in many parts of the world; the hardiest being found in Poland and the Northern Carpathian mountains where the temperatures drop to much below zero. We list the Carpathian variety. In Canada, where our trees had their source, this variety has been a very heavy producer and thousands are now growing in many of the northern states. Further description on opposite page.
PRICE: 2-3 ft. trees each \$2.85; 2 for \$5.40; 5 for \$13.00. 3-4 ft. trees each \$3.40; 2 for \$6.50; 5 for \$15.50.

Large nut trees do not transplant readily. Therefore larger sized trees are not offered.

NUT TREE BARGAIN "B"

- 2 Chinese Chestnut 2-3 ft.
- 1 English Walnut 2-3 ft.
- 1 Hardy Pecan 18-24 in.

Trees for **\$6.95**

NET, NO DISCOUNT

CHINESE CHESTNUT

The Chinese Chestnut is absolutely blight resistant and very hardy. Produces nuts of fine flavor, larger than those obtained from the ordinary American variety. Trees are long-lived. We suggest that you plant two or more trees for best results.

PRICES: 2-3 ft. branched trees each \$1.95; 2 for \$3.70; 5 for \$8.95; 10 for \$16.95. 3-4 ft. branched trees each \$2.45; 2 for \$4.70; 5 for \$11.50; 10 for \$21.00.

Bearing Age trees, 4 to 5 ft. heavily branched, \$3.75 each; 2 for \$7.00.

HARDY PECANS

We have spent a lot of time and effort to secure or locate Pecans which will be suitable for our customers. We have finally secured a source of good seed, and can now offer you a Northern Pecan which is as hardy as any Hickory nut, and should not be confused with the Southern Pecan. These trees grow naturally on overflow lands, but they will grow any place where you have good soil. They are very able to adapt themselves to different conditions. They make a beautiful ornamental tree, growing to a great height in the course of time, and will produce a wonderful crop of nuts if conditions are right.

PRICES: 18-24 in. trees each \$1.20; 3 for \$3.30; 10 for \$9.75.

2-3 ft. trees each \$1.55; 3 for \$4.35; 10 for \$12.75.

New French Hybrid GRAPES

FRENCH HYBRID GRAPES are absolutely new but lovers of fine fruits will hear more and more about them as they become better known. These hybrids differ in flavor and appearance from common American grapes and our selection of varieties will grow in practically every state into which our catalog is sent. Plants are scarce and those available will have tops from 6 to 8 in. These new hybrids are very prolific—some even bearing a small bunch or two while rooting in the nurseries. Grown on good soil, they will actually develop a partial crop the second year, though it is advisable to pinch off some bunches until the third season. We offer six varieties:

- ✧ **FOCH**—Ultra-early, red-wine variety. Grows vigorously.
 - ✧ **SEIBEL 13053**—Blue. Excellent for juice and jelly. Vigorous.
 - ✧ **SEIBEL 5279**—Gold color. Very early. Excellent for wine.
 - ✧ **SEIBEL 13047**—Very early. Blue, hardy, produces extra large grapes in huge clusters.
 - ✧ **SEIBEL 10868**—Pink variety. Fine for table use. White wine.
 - ✧ **SEIBEL 9110**—Golden white, mid-season. Wonderful for wine & table.
- 1 yr. Plants \$1.35 each; 3 for \$3.75. **PRICES NET, NO DISCOUNT**

NORTH STAR DWARF CHERRY

We offer the New North Star Dwarf Cherry as a variety that will succeed farther north than any other cherry of equal size and quality, except Meteor. The color is at first a bright red but gradually changes to a dark glistening mahogany. Fruit is juicy, tender and meaty. The stone is small and easily removed. The fruit ripening season is early, starting about the 1st of July in Michigan. The tree is small but productive and is self-fertile.

PRICE:
9/16 trees 2-3 ft.
in height, \$3.25
each. Two or
more trees at
\$3.10 each.
**PRICES NET,
NO DISCOUNT.**

North Star

New Super-Hardy METEOR CHERRY

This is an important introduction from the Minnesota Fruit Breeding Farm and we believe it will replace Montmorency in a lot of locations when it becomes better known, because of its extreme hardiness. Fruit is large to very large. Color is attractive, skin is thin, and flavor is a pleasant, mildly acid. Quality is very good. Stone is small and very free. Fruit ripens in Michigan about July 15th. This is a large size canning cherry that every commercial planter should try in a small way. Standard size trees, not dwarf. **PRICE: 9/16" trees, 3 to 3½ ft. in height, \$2.85 each. Two or more trees at \$2.70 each.**

ALMEY FLOWERING CRAB

This tree has huge, dollar-sized blooms of rich glistening, fiery crimson color, with points of pure white markings that give the blooms the appearance of five-pointed stars. From a distance the bloom is entirely red. Blooms very young. Height of tree at maturity 12 to 15 ft. Very vigorous and attains mature height quite rapidly.

PRICES: 3 to 4 ft. trees \$3.65 each; Two or more trees at \$3.50 each.
5 to 6 ft. trees \$3.95 each; Two or more trees at \$3.80 each.
